

Dear Colleagues,

The latest developments of the epidemic calls for greater caution. Therefore, according to the decision of the OCCER at September 11, 2020 in public spaces (kitchen, library, seminar room, meeting room, etc.) with more than a single person present it is mandatory to wear a mask covering the mouth and nose, effective from September 14, 2020. This restriction does not apply to those sharing workrooms. Please work with windows open and ventilate your room as often as possible if the weather allows.

Wearing a mask is obligatory if more than one people travel in a car (except for those sharing workrooms).

Two washable masks have been ordered for all CER employees; the institute directors will provide information on the time of handing them out.

We ask everyone to closely follow all anti-epidemic regulations!
